1.Introduction

1.1 Objective

This project is an information portal for National Cadet Corps-LPU.Our main aim through this website is to provide a Suitable Environment to Motivate the Youth to Take Up a Career in the Armed Forces.. We want to show the students what it feels to be an NCC cadet, To Develop Character, Comradeship, Discipline, Leadership, Secular Outlook, Spirit of Adventure, and Ideals of Selfless Service amongst the Youth of the Country.We want to make this website a turning point in the life of every student who dreams to live a life less ordinary.

In addition to this, we want to make the system of enrolment to NCC more transparent and easier. To the existing cadets, the website is going to be a crucial resource as we would allow them to see their classes, see their attendance and upcoming events.
Also it is our contribution towards the betterment of Lovely Professional University.
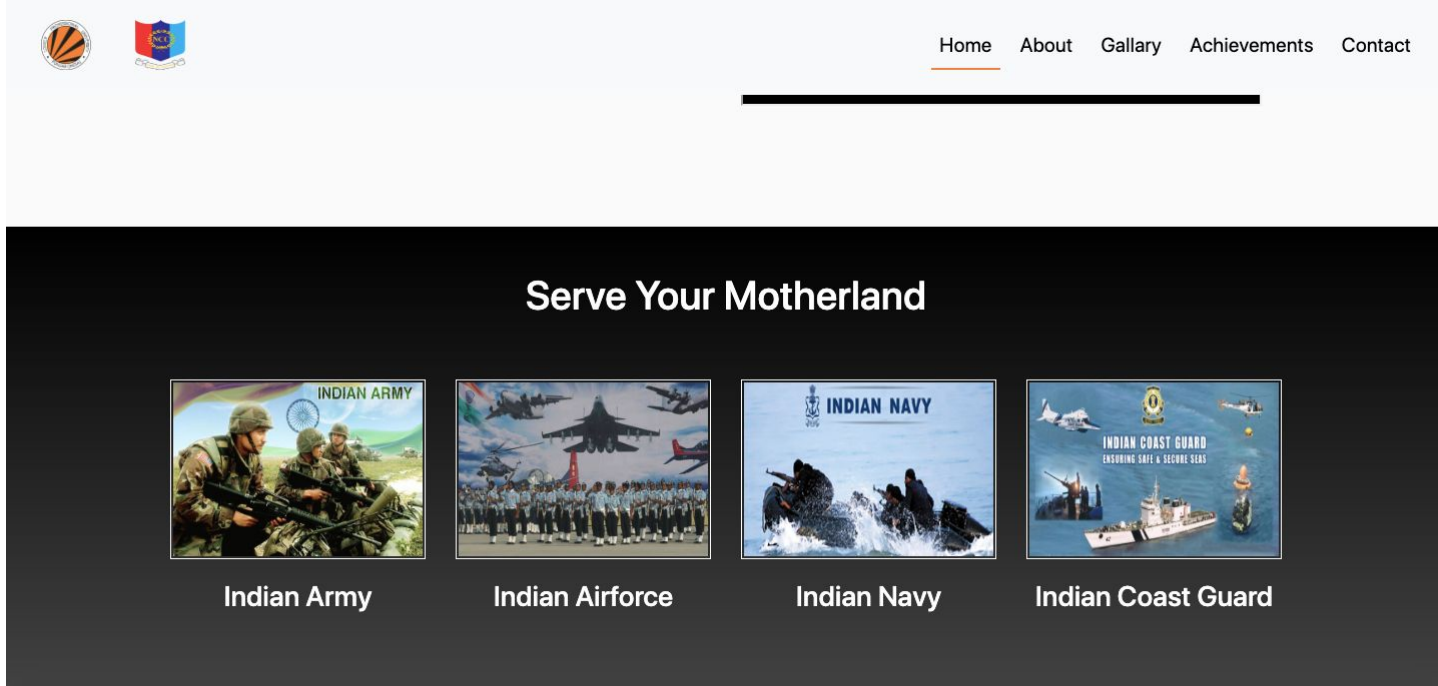

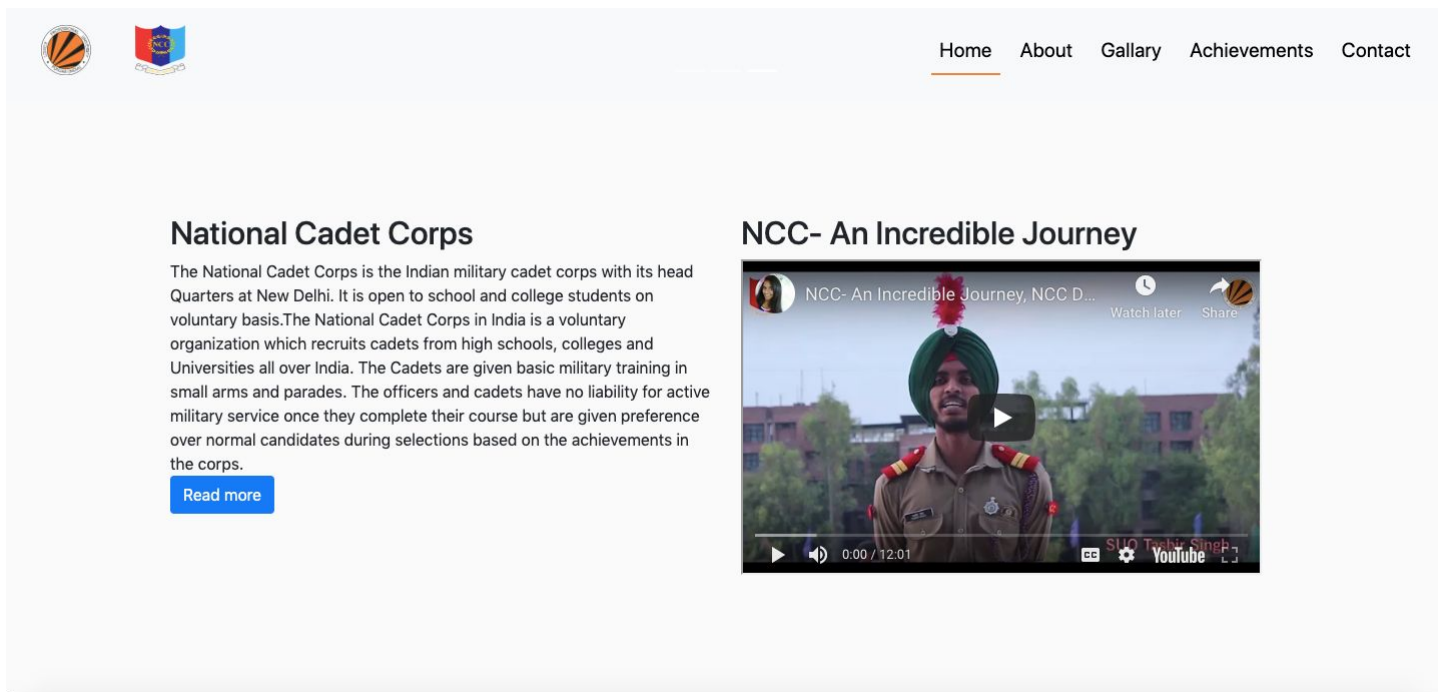

1.2 Description

The journey of LPU-NCC has been glorious right from the establishment in 2013. Proudly at present, it has 250+ cadets both in Army and Airforce Wing. This division is under 12 Punjab battalion and 8 Punjab Battalion.LPU-NCC holds the record of giving 8 cadets in Republic Day parade in a single year.

In addition to this, this organisation has given cadets who have represented India in Youth exchange programme. Mr.Saurabh LakhanPal is the present head of LPU-NCC.

1.3 Scope

As every prestigious organisation needs a website to communicate with the outer world, LPU-NCC is no different from this trend. This website can be implemented to show the life of LPU-NCC, to show how LPU-NCC is making a difference in the outside world, to demonstrate the advantages of joining LPU-NCC , to show the pass out cadets how their juniors are achieving glory and make them feel proud.

2.SCREENSHOTS

National Cadet Corps

The National Cadet Corps is the Indian military cadet corps with its head Quarters at New Delhi. It is open to school and college students on voluntary basis.The National Cadet Corps in India is a voluntary organization which recruits cadets from high schools, colleges and Universities all over India. The Cadets are given basic military training in small arms and parades. The officers and cadets have no liability for active military service once they complete their course but are given preference over normal candidates during selections based on the achievements in the corps.

Unity And Discipline

Alone we can do so little, Together we can do so much

About Us

AIM OF NCC

The NCC aims at developing character, comradeship, discipline, a secular outlook, the spirit of adventure and ideals of selfless service amongst young citizens. Further, it aims at creating a pool of organized, trained and motivated youth with leadership qualities in all walks of life, who will serve the Nation regardless of which career they choose. Needless to say, the NCC also provides an environment conducive to motivating young Indians to join the armed forces.

Yes, I Have It In Me

Hi young men and women this is Raghavendar S S got recommended from 34 SSB Allahabad. Yea I dreamt of clearing ssb and being in AIR1 and it was my dream comes true moment when I cleared ssb and no match to the gift I got on new year that is MEDICALLY FIT to join INDIAN ARMY. And I was sure about being in merit list but was AIR 1 expected? Yeah it was I was very confident that I will be AIR1. Not only there but also I was very confident that I will get recommended on the conference day as I have told all by batch mates let the number be whatever but chest number 10 will be called for sure. It was not over confident though because I know how I performed and that gave me the confidence of doing it and yea my chest number 10 was called and every one stood and gave me applause and remember friends you will not get food without work and the applause I got was not for getting recommended but for chest no10 who was very friendly, jovial, motivating the group, helping in the absence of assessors also, doing what has to be done in the absence of assessors also made all the 25 give the standing applause.

Raghavendar S S, AIR-1 (Civil Engineering) SSC Tech-52.

Anirudh Pattathil Recommended For NDA And OTA Gaya.

Prabhjeet Singh Recommended from 12 SSB, Bangalore in 6th attempt

4.Technologies used:

The technologies used in this project are:

- HTML5, CSS3, JavaScript

  These are basic languages to create a webpage with some basic functionalities

- jQuery

  jQuery offers some good dynamic interactivity with DOM html elements and ajax will fetch data from database using api calls Some jQuery libraries , frame works and plugins also can be used. Jqueryui is a very good components ui library to create dynamic components on the website

- Bootstrap

  To design frontend ui the Bootstrap framework is used. This framework allows many kinds of inbuilt components and classes which add responsiveness to the website
